About

I am practical, determined, and excited to challenge myself. I want to be part of a creative environment that allows me to grow personally and professionally. I always dream of being part of the fashion industry. The mix of concepts and ideas is fascinating and allows me to express contemporary society, the music we listen to, the books we read, and the movies we see. I want to travel and learn as much as possible in this life.

BRANDS WORKED WITH
