About

I'm an expert UI/UX /Web/Graphics designer with over 4 years of experience in designing websites, landing pages, web/desktop/ mobile applications, banners, logos, and everything from web to print. I have a lot of experience in creating websites in different fields and different countries. You can see examples of my work here:

BRANDS WORKED WITH

Keepsuit

Experience

UI/UX Designer at

| Jun 2019 - Now

Preparation of sketches, layouts and graphics using traditional tools, processing and design software. Design and construction of dummy for editorial, advertising or service pages. Creation of brand identity for clients in the financial sector, commercial sector, construction sector, tertiary sector and others. Creation of responsive graphics and layouts for websites. Quality benchmark design to meet the manufacturer's needs. Constant updating of one's skills in order to keep up with emerging trends, graphic digital trends and the tastes of the reference target. Development of offline communication graphic material including leaflets, brochures, billboards, OOH, and gadgets related to PR, sales, and events activities. Participation in brainstorming for the definition of the concepts of design and for the analysis of feedback during strategic planning meetings. Ideation and translation of ideas into sketches, wireframes, prototypes, and interactive prototypes.

UI/UX designer at

Keepsuit | Jan 2022 - Mar 2022

Creation of responsive graphics and layouts for websites in any economic sector. Quality benchmark design to meet the manufacturer's needs. Constant updating of one's skills in order to keep up with emerging trends, graphic digital trends, and the tastes of the reference target.
