About

It is a big pleasure for me to be sharing my experiences which eventually led me to the moment of standing in front of you.

In 1999 I obtained my diploma in Interior Design and from that moment I started to work for what I believe is one of the most amazing industry in all the worlds: Fashion and Luxury Industry.

During 18 years, I worked hard for brands such as Dolce & Gabbana, Versace, Prada, Kenzo and Maison Margiela, starting as Vm Junior to became Visual Director World Wide.

All the accumulated experiences over the years have become the impetus to open a new studio for Image and Creative direction: Queeng Studio and Craft.

QUEENG, as the name states, is the perfect combination between Queen and King, Masculine and Feminine, Black and White, Yin and Yang.

Why QUEENG Studio and Craft?

Because, I believe in no distinct "gender", I believe in no singular option, I don't have to identify with 'one'.

All of this opened a whole new universe to me, thus QUEENG aims to include everything, and help all the creatives to find and develop a potential in any ideas: Visual merchandising, Interior Design, Events, Merchandisers, Crafts and much more with what your creativity needs to be helped with.

Until now, the brands that have entrusted their image to Queeng have been manifold (Hermes, Cartier, Paco Rabanne, Khaite, CO, Kenzo, Veronica Beard, etc as you can see from my IG page Queengstudioandcraft)
