About

I am a gentle, easy-going person keen to pursue a career in finance. Although I am fairly quiet, I am still full of ambition. I have displayed my interest in music with my ability to play the drums in my church. My interest in sports has led me to participate in sports such as football, athletics and basketball. I have also represented my school basketball team and taken part in matches. During the summer of 2017 I took part in the government funded National Citizenship Service summer challenge in order to take on new challenges in life. During this period, I learned lots of skills, such as communication and presentation skills. I developed these skills and used them to present a pitch in front of a panel of professionals. My interest in volunteering and giving back to the community paid off with these skills I learned as I prepared a campaign for an organization to raise awareness.
