## About

I seek this position because I want to work with other people. I thrive when I am working in close contact with people and feel that I can be of help. I think that I will meet both exciting challenges, while I get an opportunity to educate myself further.

My colleagues from previous jobs describe me as positive and active. I thrive on teamwork, while I'm good to work independently and take initiative as well.

Right now I work in a luxury environment , and I am looking for better opportunities.
