About

I am a seasoned Data Scientist skilled in data management, analysis, and quality assurance, I specialise in transforming complex data into actionable insights. I possess a strong foundation in clinical research processes and a solid understanding of database development and data management systems. I thrive in cross-functional teams, collaborating seamlessly with clinical research associates, project leads, quality assurance professionals, and fellow DM teams to achieve collective goals. With a proactive problem-solving approach and excellent time management skills, I am dedicated to delivering results that drive business success and improve decision-making processes. In addition, I am a positively evolving specialist, always eager to explore new opportunities and contribute to the ever-evolving field of data science and lastly, I am a seasoned trainer with immense capacity to disseminate knowledge to the highest level required.

BRANDS WORKED WITH

ClinFocus

United Bank For Africa

University of East London

Experience

● Enrolment Support

University of East London | Jun 2023 - Oct 2023
