About

I've been an interior designer for over 5 years, and have now been self-employed for 2 years.

Curious and keen to discover new ways of working and creating, I love the idea of being able to propose, revisit and make my life useful. This allows me to take up new and increasingly rewarding challenges every day.

Dynamic and spontaneous, my career path is a fine illustration of my ability to adapt. As a space designer, I've been able to evolve in a wide variety of environments, quickly assimilating the specifics of each project. This versatility enables me to take on creative challenges with confidence, while providing innovative, tailor-made solutions. Always curious to explore new sectors, I'm ready to immerse myself in new worlds, adjusting my skills to meet the most diverse needs and expectations.

With a degree in space design and brand communications, I'd like to combine these skills to open up new perspectives.

BRANDS WORKED WITH
