About

I spent my life working very hard and wanting to grow more in whatever I do. I started working at bars, pubs, clubs & snooker halls for many years then I wanted more so I started working at coffee shops and restaurants quickly gaining promotions from waitress & Barista to Manager. I enjoyed that important role and gained a lot from it. I had to stop working as I became pregnant with my third child and as I am a workaholic, after 3 years of unable to work and then COVID restrictions & lock downs were put in place I felt I needed to be doing something productive. So u started my own Business Talent Image Entertainment Ltd based in London to help models find work in their field. It started off with modelling as that's what I knew and because of the fakes, the scammers and the unsafe variety I wanted to point them in the right direction – safely, especially women. That was in November 2019. The business/agency went very well straight away, it then went to actors castings as after lockdown I started modelling again and started acting in feature films, speaking roles, then to be an extra on TV programmes and then the production side of filming (behind the scenes) grabbed my attention and then I started producing my own productions. Talent Image Entertainment Ltd grew even more than I anticipated, so now almost 4 years growing the business I have been interviewed many times, published in magazines for my business & acting. I have won an awards for my acting and photography and I am now a well respected Talent Entrepreneur & film festival judge . I am very excited where I am heading and what great things my future holds.

BRANDS WORKED WITH

talent image Entertainment Ltd

Experience

● Managing Director & CEO

talent image Entertainment Ltd | Nov 2019 - Aug 2023

I am still growing my business so very nicely and heading towards TV networks and TV HOSTS Collaborations
