## About

I am an experienced designer currently based in Paris. Inventive and versatile, with a great understanding of the overall creative and production process, after moving from New York, I am open to new challenges and opportunities in Paris. For the past 8 years, I have worked as a leather goods, jewellery designer in Paris and London, and more recently interior designer in New York. Over the past few years, I have realised how the fashion industry is changing and how sustainability is at the core of this change and I am thus keen to lead the next chapter of my career in this direction. As such, I aim to create or reinterpret products in more sustainable and circular ways. I am currently open to a wide range of creative and consulting missions and roles in Paris. If you think my profile can be a good fit for your company and mission, please feel free to contact me at: [julieberangere.marechal\[at\]gmail.com](mailto:julieberangere.marechal@gmail.com) Below the link to my online portfolio: <http://julieberangeremare.wix.com/portfolio>
