About

Specialized in Russian and English languages, with academic and working knowledge of the French language.

I am a person who is extremely attentive to detail and precision and this allows me to achieve my goals.

Living in Russia has allowed me to adapt to many situations and step out of my comfort zone. Moreover, I believe that the exchange between cultures and everyday experiences enriches me and those around me.

I am keen on sustainable fashion and Vivienne Westwood's manifesto is my life motto.

I consider myself extremely open-minded and I am against any kind of discrimination.
