About

I am very smart talented person, modern, bold, confident with myself as well as in my work especially and I am very enthusiastic and unique. My personal sense of styles of work production and preferences are; elegant, sophisticated, memorable, classy and timeless in couture and ready to wear. I'm a forward thinking individual however I can also produce work to fit different styles but of high quality. Having; to attend the University of Plymouth Somerset Colleges of arts and Technology BA (HONS) fashion design has disposed me into accumulating knowledge and understanding of, and about the industry not only of fashion but of design and improved my ability to problem solve different cases. I am honest, sincere, and a open minded person, who is seeking for opportunities to work in the industry of fashion.

BRANDS WORKED WITH

Admiral Catering and Waitressing
