About

I have experience in retail customer service, including greeting customers, answering queries, organising products, and stock taking. I am adaptable, a positive team player, and eager to learn and share knowledge within dynamic retail environments.

BRANDS WORKED WITH

IBM

Lovisa

Experience

● technology

IBM | Jul 2022 - Jul 2022

Workers of IBM described what kind of technology they've been using within their business e.g., automation robotics, emerging technology.

- They've briefly described how they were able to deal with technology development
- They've also described on how the enhancement in technology has helped them to concentrate/focus on other areas within their business.

Customer service Greeting customers Responding and answering queries and concerns from clientele. Organisation of store products Delivering information about a company's offerings to clientele Providing proactive customer support Instrumental in stock taking and checking

● IBM apprenticeship application masterclass

IBM | Feb 2022 - Feb 2022
