## About

I am 18 years old currently studying at Lilian Baylis Sixth form. I am often described as a determined, driven individual but I would say I am also described as a positive energy to be around, fulfilled with a bright personality and motivated. I am in love with the sense of fashion especially luxuries as well as connecting with individuals from diverse groups, building relationships and creating bonds. I have a strong passion for fashion but also enjoy working as a team or independently.
