About

My name is ardiansyah, I come from Indonesia, I found this remote job vacancy info from linkedin, I really hope that I can contribute to this company,

My experience working in the graphic design world is more than 10 years, the latest experience is that I even created a startup pixastok.com to make it easier for people to make graphic designs via smartphones with the pixellab application, where I provide templates for free on the pixastok.com web. During college I was also active in creating motion graphic content for educational purposes

It doesn't stop there, I also continue to explore myself with skills that support the world of graphic design and Motion graphic, ranging from easy to difficult levels, and keep up with technological developments in the graphic design world. I really hope that I can continue to contribute to this company.

Thank you
Muhammad Ardiansyah

Bachelor of Engineering
