About

Graduated from a Bachelor Stylist - Modelist, at the Supdemod school in Lyon in 2020, I am continuing my studies in a Master's degree 2 Fashion Artistic Direction, at Condé school. I deepen my knowledge in order to be able to develop a singular and strong universe, innovative productions, both in styling and in textile creation.

For several years, I have been passionate about fashion, textiles and all the creation surrounding these areas.

Being passionate, dynamic, responsible and with good interpersonal skills, I like to take up new challenges, such as managing complex and ambitious projects.

I envisage my future as a stylist, or even as an artistic director. Indeed, I am sensitive to all forms of art and trends, and I have an affinity for writing.

Being curious, I am ready to work all over the world, but in an English, Spanish or Mandarin speaking country, as I practice these languages.

The taste for exploring new countries was passed on to me by my parents, during long excursions, such as to Vietnam, Bali, China...

BRANDS WORKED WITH

Revivre Studio
