About

A current Global Environmental Change student with strong team work and organisational ability as well as problem-solving abilities developed through academic and extracurricular activities: skilled at working closely with others in a team environment and with a flexible approach to work. I hold my first master's degree in Geopolitics and International Relations and graduation degree in triple majors which includes Economics, Political Science and Sociology. My research interests are Climate change and any environmental security related topics. I hold expertise in working in research firms as intern and have successfully published my research articles: skilled at communicating with people and time management. Currently looking for a part-time role in retail firm.

BRANDS WORKED WITH
