Experience

● Photographer / video artist

| Jan 2010 - Now

I started working in fashion photography in 2006, assisting photographers while living in NY New York.

Then I moved to Paris and I made my first making tests for top models agencies.

started working for the top model agencies doing tests.

Soon enough I was shooting editorials and e-commerce, specialising in beauty, fashion and portraits.

I've recently started to also, add film to my skills.

I'm highly creative and fast. I also edit and retouch my images and films. I'm extremely approachable and make people at ease in front of the camera.
