## About

Passionate product design graduate with a Master's from Kingston University and a Bachelor's in Mechanical Engineering. Proven expertise in design principles, prototyping, and CAD, showcased through impactful projects and professional experience. Adept at optimizing logistics operations and enhancing customer satisfaction in dynamic roles. Skilled in 3D printing technologies and reducing production time/cost. Certified in AutoCAD, Lean Six Sigma, and Industrial Design. Eager to contribute creativity, adaptability, and technical prowess to a dynamic design or engineering team. Open to challenging opportunities that align with my commitment to excellence in product design, manufacturing and process optimization.
