About

I am a target-driven Loughborough University Student studying Product Design Engineering who holds herself to a high standard of academic success. I am always looking for new opportunities to learn. I'm eager to enrich my existing professional skills including project management, independence and emotional intelligence- whilst adding value to any team that I become a part of. I am incredibly passionate about people and my community. I possess the ability to effectively multi task and demonstrate excellent skills within a variety of leadership roles.
