## About

I'm a designer specialize mainly in bags and leather goods, although in my experience of over 15 years I had the opportunity to work on different products such as slg, footwear and soft accessories, capable of coordinating different products for an optimal total look result.

My technical skills are strong so like my creativity, confirming my predisposition for clean beauty and functionality.

I'm confident to work in team, so also in a more independent way, I'm flexible and proactive.

I am so grateful to be able to deal with such exciting and unique work in being so closely in touch with the present and people, to be able to aspire to design a good and better future.
