About

Having lived and been educated in Switzerland, America, and the UK, I have a rich history of cultural experience and perspectives that fuel my passion for marketing. These diverse experiences have not only deepened my appreciation for different cultures but have also honed my ability to quickly adapt to new environments and take on challenges.

My degree in History refined my excellent communication and writing skills. I consistently scored first-level marks in all oral presentations over my three years at university and finished overall with a high 2.1 degree.

My unique blend of global exposure and academic achievements equip me to deliver impactful and new strategies to wide-ranging audiences.
