About

I am an outstanding student who has a background in Biology, Chemistry and Psychology. I feel that my qualification and my grades are showing that I work very hard in everything that I choose to study. In addition, I enjoy learning new skills and like to explore different ways of facing challenges. Also I am highly motivated and dedicated seeking a job opportunity to gain valuable experience and apply my skills and knowledge in a practical setting. I am eager to contribute to a team oriented environment and further develop my skills. I really like challenges, when it comes to working ,for example I would do tasks which are not on my job description to develop my skills. I will definitely try to bring in a great investment to the company, and that is if you hire me.
