About

Senior Accessories designer specialized in Women's and Men's leather goods, slg's and belts with 9 years of demonstrated history in the industry. I am able to develop a project following the entire creative process, from concept/moodboards and color palettes to the final pre production sample. Strong computer skills and a proficient

knowledge of Adobe Photoshop and Illustrator. Meticulous attention to details and a high level of expertise in developing advanced techpacks format. Significant understanding of upcoming trends, new materials and innovative hardware techniques, strong sense of colour combination and details.

Managing the time in the best way possible, I have the ability to work efficiently on more than one collection and category simultaneously. I'm a valid and responsible team member, collaborative and reliable, with a strong problem solving, always ready to give creative inputs during the entire process. I work closely with the product development and merchandising team, along with rtw and footwear department where I share ideas to create a strong and cohesive collection.
