## About

I bring meticulous attention to detail and exceptional multitasking skills from my healthcare management background. Experienced in client help, stock control, and complaint handling. Adaptable across high street stores and shopping centres, I'm eager to transition into retail sales roles.

### BRANDS WORKED WITH

## Experience

### ● provincial Polio officer

WHO (World Health Organization) | Jan 2017 - Oct 2023

national and global initiatives. They significantly enhanced surveillance, promptly detecting, and reporting 143 cases of Acute Flaccid Paralysis. Skillfully planning and executing immunization campaigns, they achieved over 90% coverage, alongside conducting impactful training for healthcare personnel. Their strategic role extended to the development and management of polio vaccine supply, including cold chain coordination. Through community engagement, data management, and swift outbreak responses, they fostered awareness and ensured effective control measures. Collaborating with diverse stakeholders, efficient resource management, and consistent reporting to the World Health Organization (WHO) underscored their dedication. The individual's pursuit of a polio-free status involved rigorous surveillance, vaccination efforts, and regular capacity assessments to optimize the provincial healthcare system for sustained success.

### ● general Physician

Baran | Jan 2016 - Jan 2017

providing a wide range of primary services, including diagnosis, treatment, and preventive care. They emphasize vaccinations, screenings, and health education to empower informed decision-making. managed chronic conditions, prescribe medications, and offer emergency care, especially in areas with limited specialized services. Collaborating with specialists, maintaining records, and engaging with communities, comprehensive and culturally sensitive healthcare. and promoting community well-being.  
Nurse.
