About

I am an enthusiastic young A level student, and I'm motivated to pursue work in retail, food and drink areas. I am a GCSE graduate student who studies Psychology, Business, Biology and Core Maths at Trinity Catholic high school. I previously completed my GCSEs at Kantor King Solomon High School. I wish to do a qualification based on one of these three subjects in university. I completed these GCSEs at Kantor King Solomon high school, which educated me but also my behaviour and pushed me further in helping others.
