Esperienza formante che ti mette a contatto con la materia prima: la pelle.

Un insegnamento che consiste nel saper utilizzare la materia con e grazie al mondo della lavorazione di cui necessità: uno stretto contatto tra la manualità e il disegno avanguardista.

La possibilità di imparare un mestiere, imparare ad utilizzare macchinari e toccare con mano la consistenza di un progetto; progetti che l'azienda non rifiuta ma che anzi apre le porte a tutti.
