About

Experienced digital designer, possessing a range of skills, including graphic design, UX/UI design, user research, branding, and understanding of development process: experienced in designing the overall user experience, including information architecture, wireframing, and prototyping" creating and maintaining a consistent brand identity across all touchpoints, including visual design, messaging, and tone of voice" creating design the interface, including layout, typography, and visual design" designing marketing collateral such as brochures, business cards, and social media graphics that align with the brand's identity and values" effectively communicate design decisions, rationale, and feedback to cross-functional teams, stakeholders, and clients" efficient time-management, task prioritization and meeting deadlines in a fast-paced environment.

BRANDS WORKED WITH

Together

Experience

● Digital Designer

Together | Oct 2021 - Now

Created interface designs, dashboards, presentations, product shots, and data visualizations for clients in the technology industry. Prioritized teamwork and a user-centered approach to problem-solving, working collaboratively with cross-functional teams to solve customer problems through direct communication. Gained experience working with retainers to provide ongoing design services to clients.

● UX/UI and Graphic Designer

| Apr 2020 - Jan 2022

Created visually stunning websites and landing pages while also helping clients improve their brand identity.
