## About

I am a graphic designer with 5 years of professional experience and a proven track record of success in the luxury fashion industry. Throughout my career, I've had the privilege of designing for esteemed brands, including London Fashion Week, Harpers Bazaar and Fashion Scout to name a few.

My skills include illustration, 2D animation, video and photo editing. I have experience in managing multiple projects simultaneously and using my strong understanding of current trends I have completed a range of projects that require thinking outside of the box and aligning with a cohesive brand identity where necessary. I have a genuine passion for art history which enriches my creative perspective and informs my approach to design.

I have 10 years + of experience using the Adobe suite and I'm adept at creating a range of graphic styles. This has allowed me to produce effective graphic designs for a wide range of well-known brands such as BAFTA, The Church of England, and Zilliqa Blockchain. These clients demonstrate my ability to tailor designs to meet diverse target audiences and project requirements.

In addition to my passion for visual design, I bring a unique perspective shaped by my background in consumer psychology, which I studied for my dissertation. This interdisciplinary knowledge, combined with my creative skills positioned me to work with major brands immediately after graduation, building a solid five-year tenure as a freelance designer. Now, I am eager to transition into a permanent role where I can apply my diverse skill set and contribute to a dynamic team environment.
