Mama Thai | Aug 2016 - Nov 2019

last week of november- 1 st week december During the year 20 19, mul-berry school for girls had allowed all students to go for work experience for a week (5 days), although this was for only 5 days, I learnt a lot in this. Customer service was hugely important as you had to consistently help the customers either finding the items or when asked questions about an item. Teamwork was another skill that I learnt a lot as when I was working there a lot of the employees were smiling and helping each other especially when In the stock room or not knowing what the customer is asking about the product so you ask your colleague.
