About

Hey there! My name is Marlon, I'm from London. I am a Photographer/Videographer studying at UAL, with experience working in hospitality alongside my Photography career.

Although I have no experience in retail, I have experience with customer service from a hospitality and photography standpoint, I am adaptable and a fast learner, and my experience with communicating and working with clients as well as customers are certainly transferrable to retail and would help me swiftly become a valuable sales associate in your team.
