About

EXECUTIVE SUMMARY

With over 2 Decades of Strategic Leadership in Logistics, Transportation, and Supply Chain Management, I am dedicated to propelling operational excellence and sustainable growth. My career spans dynamic markets in Sri Lanka and diverse industries in the UK, showcasing my adaptability and expertise. As a visionary leader, I excel in optimizing resources, driving cost-efficiency, and fostering innovation through quick decision-making.

I specialize in transportation management, supply chain optimization, project coordination, and stakeholder engagement. Collaborating with 50+ Third-Party contractors, I ensured seamless operations. In the UK, my role as a Care Assistant refined my adaptive leadership style and interpersonal finesse, exemplifying my commitment to versatile leadership.

A Master of Business Administration Global (MBA) from the University of South Wales fortified my global strategy, project consultancy, and financial acumen. I am acclaimed for my research on "AI and Blockchain in Supply Chain Practices. Also, I have graduated with a Master of Science from University of Bedfordshire, Luton. "Certifications such as CMI Level 7 Diploma in Strategic Management and All Wales Manual Handling Passport underscore my commitment to professional growth and compliance.

I am poised to invigorate logistics and supply chain capabilities, offering a dynamic blend of adaptability, expertise, and strategic vision.
